
FORM EXPLANATION AND INFORMATION

PURPOSE/PROCEDURE:

- This form serves to assist in determining if hoisting operations include critical lifts. Critical lifts are defined as any of the following:
 - Multiple cranes are used to make the lift;
 - The load exceeds 75% of the crane's load chart capacity (at the specific boom angle and radius);
 - High risk activities (i.e. over occupied spaces or roadways, long lead items);
 - Aircraft picks;
 - Hoisting Personnel.
- The form provides an agenda for the required meeting to discuss the specific lifting procedures.
- The form should be completed by the contractor using the crane and the crane supplier. Include load charts, weight information, rigging information, etc. with critical lift form.
- This form should be completed on [HammerTech](#) under the "Meetings" module.
- Any questions related to this procedure should be directed to Power's Safety Department.
